

E-MO

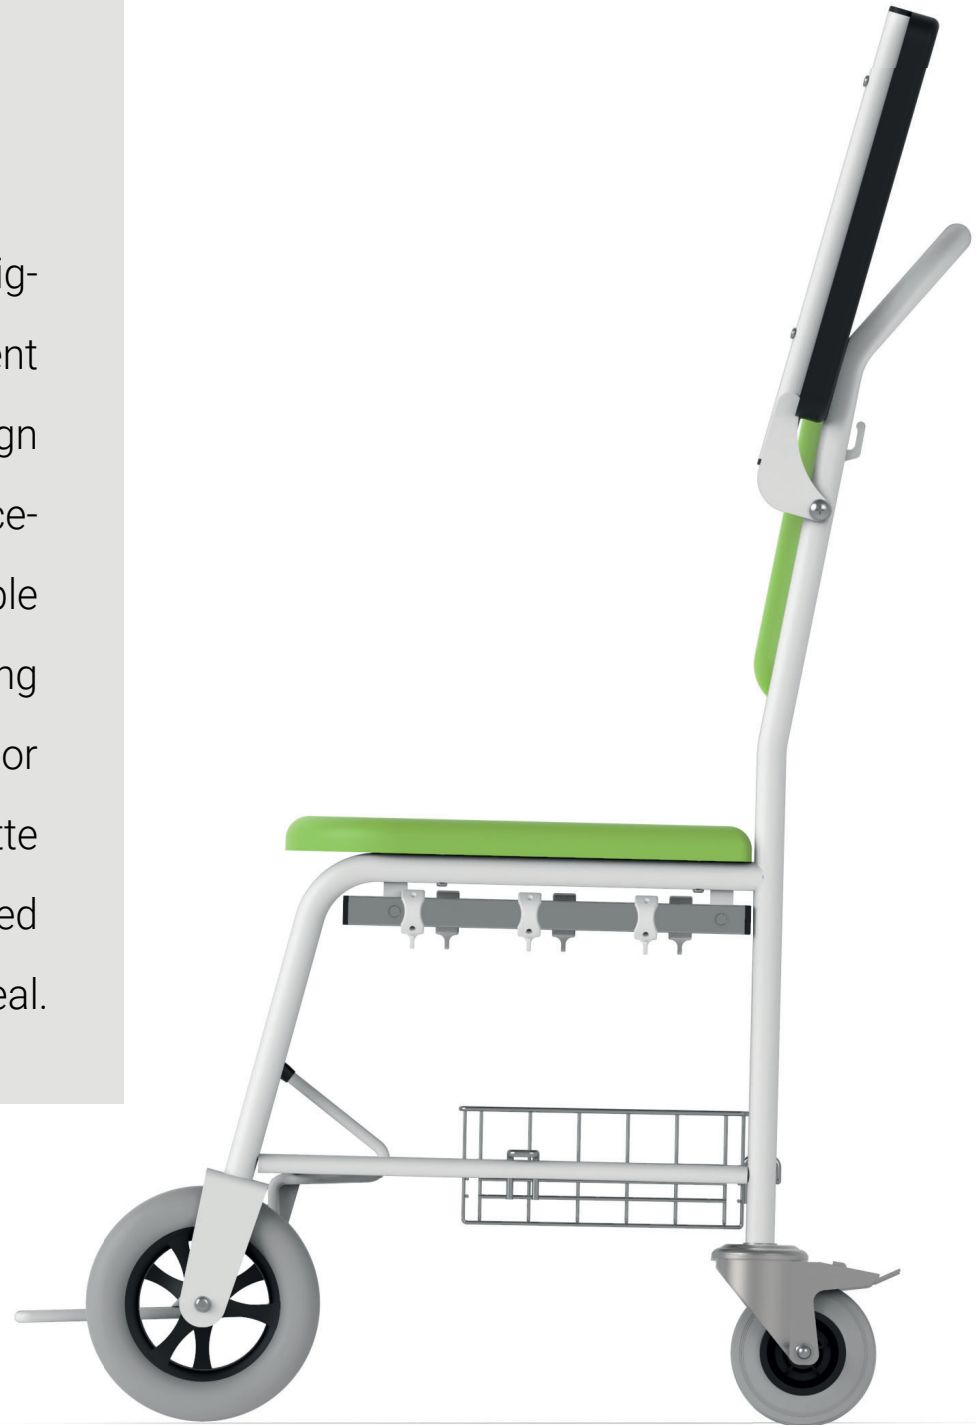

Transport chair

E-MO

The new E-MO transport chair is very simple, designed to meet the basic requirements for safe patient transport indoors and outdoors. The chosen design and materials used ensure long life and maintenance-free. Both the armrests and the footrest are foldable so that they do not interfere with the patient getting up or getting on. The possibility of choosing a color design from a wide range of colored leatherette designs is a matter of course. Robust, tightly welded and unfoldable construction makes it difficult to steal.

Easy handling

The E-MO chair has been designed to be easy to operate with one hand. Its controls are also usable by people with limited mobility.

Load capacity up to 200 kg

The simple and robust metal construction with a load capacity of up to 200 kg ensures excellent handling, reliability, durability and long life of the chair.

Wide range of colors

The choice of colour design allows patients and staff to create an aesthetic and inviting space that can help improve mood, comfort and reduce stress.

Folding armrests and footrest

For better transport comfort, the chair is equipped with armrests and a footrest that can be easily folded.

Good passability through narrow spaces

Thanks to the width of the chair, which is only 56 cm, very good passage is ensured even in narrow spaces.

Choose the accessories to suit your needs

You can choose from a wide range of accessories such as a basket for small items, a seat belt or a accessories bar with hooks.

High-quality wheels with minimal rolling resistance

E-MO is equipped with high-quality wheels with minimal rolling resistance. These wheels are designed to move easily over various surfaces without the need for excessive force.

Easy cleaning and maintenance thanks to quality materials

Only the highest quality materials that are resistant to wear and damage were used in the development. In addition, they are easy to clean.
